Dear Corey Potvin and CASA SLC members:

Thank you very much for participating in our first Super Science Family Night on Friday November 3, 2006. We felt like the event was extremely successful. We had nearly 300 visitors attend the event and over 80 people from 20 different organizations work activity stations during the event. Your activity station *Make Your Own Tornado!* was a vital part of the event and we greatly appreciate your willingness to share your time, enthusiasm and expertise with the families that attended the event.

We hope to make this an annual event and we will use your feedback to guide us as we plan for next year's second Super Science Family Night. If you have additional ideas, comments, or contacts from other organizations, departments and local scientific businesses that may be interested in participating next year, please feel free to share that information with us at any time.

Once again, thank you very much for helping us share the wonders of science with elementary school children and their families.

Best,
